Citrate cycle (TCA cycle) (Module_09)
Protein processing in endoplasmic ret... (Module_14)
Carbon metabolism (Module_09)
Parkinson disease (Module_09)
Microbial metabolism in diverse envir... (Module_09)
Biosynthesis of secondary metabolites (Module_01)
Biosynthesis of unsaturated fatty acids (Module_01)
Cell adhesion molecule (CAM) interaction (Module_17)
Insect hormone biosynthesis (Module_01)
PPAR signaling pathway (Module_01)
Biosynthesis of secondary metabolites (Module_09)
Prion disease (Module_09)
Glutathione metabolism (Module_15)
Diabetic cardiomyopathy (Module_09)
Amyotrophic lateral sclerosis (Module_09)
2−Oxocarboxylic acid metabolism (Module_09)
Chemical carcinogenesis (Module_09)
Pathways of neurodegeneration (Module_09)
Glyoxylate and dicarboxylate metabolism (Module_09)
Pyruvate metabolism (Module_09)
KEGG Pathway (Module)
